Are you interested in participating in the AIC's Tax Recovery Exchange and Compliance system (TRECs) program. This page should provide all the information you need to participate in the program.

Senate Enrolled Act 515 (2017) permits counties to participate in the state's debt setoff program. The program used by state agencies, the federal government and some universities for several years is now available to local units of government. People who file income tax returns in Indiana and are due a refund but owe a local government debt are eligible for the program.

Debts must be submitted to a local government clearinghouse for standardization and to be efficient for the Indiana Department of Revenue to administer the program. If you have questions about the program, you can email [Jacque Clements](mailto:Jacque.Clements@aiccounties.org)
